

# HI I'M MAJA USAK,

GRAPHIC DESIGN, IMAGE-MAKING,  
CODING, COLLECTING, EDITING.

My work circles around printed matter, image-making, and physical installation, often using reproduction as a subject. I tend to collect, edit, crop, put together and put apart again, move between digital and analogue. I'm drawn to found imagery and its circulation, and to what happens when an image changes surface, format, or context.
